## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-19,21-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO'347 in view of JP'438, '044, '967, '240, '687 substantially for the reasons of record. The amendments and remarks filled by applicants in their last response have been fully considered. Applicants have mainly argued that the prior art does not teach or suggest the ranges of plasticizer content. Also, applicants have argued that specification shows unexpected results regarding the amount of plasticizer. In response, the examiner submits that the prior art teaches the use of plasticizer. In regard to the alleged presence of the unexpected results, it is respectfully submitted that the examiner fails to see such unexpected results in the paragraphs 89 and 90 as cited by applicants. The claims remain unpatentable in view of the prior art of record.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
